## **A    Performance Goal 2.2.3 - Reduce LDD**

### **Status**

- January Update - Since a baseline performance level determination could not be made until the input of the DD1662's into the Contractors Property Management System (CPMS), FY00 focus on LDD selected contractors who exceeded the baseline could not be provided to this office. As of 3 Dec 99, the majority of input have been made and we calculated that the baseline for FY00 is \$.00036. On 10 Dec 99, the Districts were provided this baseline so that they can determine selected contractors to monitor for FY00. We are assured that this information will be provided to this office by 18 January 2000. At that time, we will provide this information to the appropriate offices to be

## **A    Performance Goal 2.2.3 - Reduce LDD**

### **Status**

- Nov/Dec Update - Maintenance contract with Mantech was awarded in early Nov and is now in place. However, after a thorough review of the reported processing problems, the lead Government resource determined that there were a backlog of a large number of problems with DIRAMS at the help desk that had not been reported to her office. The process of reporting problems is in place.
- At the present time, she is trying to get a handle on the number of problems and to ensure that coordination between the help desk and the process owner are being done before the next code maintenance release is issued (Version 5.1)
